

Measured O_2 consumption rate
($\text{mg O}_2 \text{ kg}^{-1} \text{ h}^{-1}$)

Wilcox $p < 0.001$

Chemical reaction rate constant,
kL ($\text{L kg}^{-1} \text{ h}^{-1}$)

Wilcox $p < 0.001$

Sediment Type  Dry Sediments  Wet Sediments

Measured rates: segmented regression (data package). kL: combined model, $K_m = 0.2 \text{ mg/L}$.
Values per kg dry sediment.
